Career Objectives

Currently I have just finished working towards an Associate's degree in Web and Computer Programming, and am looking to find employment in my field of study. The education and experience I accumulated in the IST program at Jones County Junior College will be used to further my career and experience. I plan to continue my education at the University of Southern Mississippi either as a full-time student, or a part-time student working to pay tuition. I look forward to building a career in the IST industry.

Education History

South Jones High School- graduated April 29, 2015

Jones County Junior College Information Systems Technology Web and Computer
